Each year more than 175,000 international students from over 160 countries choose to come to Victoria to study, attracted by our innovative and multifaceted education system, diverse study options and high standard of living.

High quality universities, vocational training institutes, private colleges and schools across the state make Victoria an education destination that helps students design their own future.

The city offers a vibrant, multicultural lifestyle with a renowned arts scene and world famous food and fashion, as well as Australia’s best shopping and leisure opportunities.

In addition to being voted the World’s Friendliest City and ranked the World’s Most Liveable City for five consecutive years by The Economist magazine, Melbourne has been also ranked second only to Paris as the world’s best student city. This award recognises the high quality education, healthcare, research and development, safety, culture and infrastructure in Victoria.

The state of Victoria also offers a wide range of opportunities to live and study in regional centres, offering a diverse and unique student experience, located just an hour or two from Melbourne.

Alongside support services for international students at each institution, Melbourne is home to the Study Melbourne Student Centre, an award-winning government initiative which provides support, information and welfare services to enhance the experience of international students living and studying in Victoria.

In a snapshot, Melbourne and regional Victoria boast:

- 10 universities, including two of the world’s top 100 universities and five of Australia’s top 20 universities
- an industry focused vocational education and training system
- four of Australia’s five universities which offer both higher education and vocational education and training opportunities
- a well-developed system of well-defined pathways between education sectors
- access to world leading research infrastructure.

Melbourne, the vibrant capital of Victoria, is a multicultural city, renowned for its culture and lifestyle.

AUSTRALIAN CATHOLIC UNIVERSITY

With over 150 years of educational heritage, Australian Catholic University (ACU) is a publicly funded Australian institution offering students high quality and internationally recognised qualifications.

ACU is the largest Catholic university in the English speaking world and is ranked in the world’s top 10 per cent.1 Its focus on community engagement and practical skill development ensures ACU graduates are ready to make a real difference in the world.

With over 32,000 students from a range of nationalities, religions and cultural backgrounds, ACU is one of Australia’s fastest growing and most affordable universities. Its culturally-diverse population includes students from over 98 countries.

ACU offers more than 170 high-quality, career-relevant undergraduate and postgraduate coursework degrees across a range of academic disciplines. Students from ACU are in demand, with 93 per cent getting a job within four months of graduating.2 Its English Language Centres and diploma pathway programs are university integrated and its research portfolio includes seven research institutes.

With well-established links – nationally and internationally – courses include practical work and community engagement opportunities designed to prepare students for employment and leadership positions across the globe.

ACU has links to 200 universities and institutions spanning the globe. This international focus offers students the opportunity to spend one or two semesters of their study program abroad.

Areas of expertise
- Accounting & Finance, Business, Marketing
- Biomedical Science
- Business Information Systems, IT
- Clinical Counselling
- Digital Media, Visual Arts & Design
- Education, Teaching
- Exercise/Sport Science
- Global Studies, International Development
- Health Science
- Law
- Management (MBA)
- Nursing, Physiotherapy
- Occupational therapy
- Philosophy, Theology
- Psychology, Clinical Counselling
- Public Health
- Social/Youth Work

Research programs

ACU is committed to developing a specialised and high-quality research environment that promotes informed debate and community engagement. The University has four faculties and seven research institutes. The institutes include some of the very best researchers in the world.

- Institute for Positive Psychology and Education
- Institute for Religion and Critical Inquiry
- Institute for Religion, Politics and Society
- Institute for Social Justice
- Learning Sciences Institute Australia
- Mary MacKillop Institute for Health Research
- Institute for Health and Ageing

1 University Ranking by Academic Performance (URAP).
2 Graduate Destinations Survey 2014.
Reflecting the University’s Catholic ethos, ACU’s four priority research areas revolve around key societal needs. These priority research areas are:

- **Education**: research concerned with quality, equity and diversity in education with emphasis on leadership, numeracy, literacy, Indigenous and religious education.
- **Health** (including mental health): research that progresses the quality of health care, especially for the vulnerable.
- **Theology and Philosophy**: research concerned with the elucidation, development and expression of Catholic intellectual thought.
- **Social Justice and the Common Good**: cross-disciplinary research in the liberal arts and social sciences that enhances the social and cultural wellbeing of communities.

**International student services**
ACU offers dedicated services to international students, providing advice on and assistance with enrolment, course selection, accommodation, and student visas. All ACU students have access to confidential counselling services, careers advice and guidance, academic skills and language support, disability services and on-campus ministry.

**Campuses**
With seven campuses in six Australian cities, ACU offers students a choice of study locations, each with its own unique environment and course offerings. International students can choose to study from the following campus locations:

- Melbourne
- Ballarat
- Sydney (North Sydney and Strathfield)
- Brisbane
- Canberra

Students can transfer between campuses during their studies (subject to course and unit availability), and enjoy everything the Australian lifestyle has to offer.

DEAKIN UNIVERSITY

Deakin University is a top-rated international education provider with world-class graduates.

Industry-focused degree programs and a strongly international outlook mean that Deakin graduates are ready for the global workplace.

Deakin is ranked in the top three per cent of universities worldwide and is a higher education leader in using the latest digital advances to enhance teaching delivery and the student experience. With more than 50,000 students across five campuses, Deakin is one of the largest and most expansive universities in Australia.

Deakin is home to remarkable, world-class facilities devoted to numerous study areas. Deakin has custom studios for architects, state-of-the-art simulation facilities for medicine and nursing students, and the second largest motion capture filming facility in the Southern Hemisphere. And for those students interested in engineering and technology, Deakin’s Institute of Frontier Materials and Geelong Technology Precinct have the latest equipment and computing tools for exploring the science of the future.

Deakin has international offices in China, India, Indonesia and Sri Lanka to assist future students in their decision-making process. Deakin also has numerous partnerships with institutions around the world to enable research, overseas study programs and credit for prior learning initiatives.

Areas of expertise

- Accounting and Finance
- Architecture
- Business
- Creative Arts
- Education and Teaching
- Engineering
- Environment
- Health
- Humanities and Social Sciences
- Information Technology and Systems
- Law
- Media and Communication
- Medicine
- Nursing and Midwifery
- Nutrition and Dietetics
- Psychology
- Science
- Sport

Research programs

Deakin is home to leading, future-focused research facilities that deliver world-class research programs recognised around the world. These include:

- Centre for Emerging Infectious Disease – Deakin is a key partner with this Geelong-based facility, which is taking a new multidisciplinary approach to managing infectious diseases in people, animals and the environment. In a world-first, Deakin researchers have pioneered the industrial production of high-value, short ultra-fine fibres with the potential to improve leukaemia treatment.
• TERI – Deakin researchers at the newly expanded TERI-Deakin Nanobiotechnology Research Centre in India are working with their colleagues in Australia to develop solutions in global issues such as food security and sustainable agriculture practices.

• Max Healthcare – an innovative data mining initiative is currently being introduced across 10 hospital branches in India by Max Healthcare. This joint project involves using data analytics to work across medical recordings – including admissions, diagnosis and computerised registries – to identify critical safety issues and improve efficiencies.

Deakin’s research and teaching programs are enhanced through collaboration with numerous industry partners in Australia and internationally, including IBM, Chinese steel giant WISCO, and Australian mobile provider Telstra, among others.

International student services
Deakin has a dedicated International Student Adviser team to assist international students with their transition to university life. This assistance can cover anything from financial difficulties or visa issues to adjusting to the Australian education system.

Deakin provides assistance and short courses for students who might need to improve their English skills, and Learning Advisers are available to help students with their coursework and study skills. Deakin also has a mentoring program in which experienced students offer assistance and insight to first-year students. Many mentors are international students themselves, so they understand the concerns of students new to Australia.

Campuses
Deakin has five modern campuses located in three unique locations across the state of Victoria and in the cloud, as well as four international offices.

- Burwood, Melbourne
- Waurn Ponds, Geelong
- Waterfront, Geelong
- Warrnambool
- Cloud Campus (online)

INTERNATIONAL OFFICES
- South Asia Office – New Delhi, India
- China Office – Beijing, China
- Indonesia Office – Jakarta, Indonesia
- Sri Lanka Office – Colombo, Sri Lanka

FEDERATION UNIVERSITY AUSTRALIA

Federation University Australia (FedUni) is a leading regional university with a strong tradition of delivering education, training and research.

FedUni is Australia’s third oldest university, with a proud history dating back to 1870. It places great emphasis on quality teaching and learning, the student experience, and importantly, employability after graduation. FedUni is recognised as a welcoming and friendly university for both domestic and international students.

International education is an integral component of FedUni’s operations. With more than 6,000 international students studying degree programs in Australia and overseas, FedUni is proud of its ability to guide and assist international students to succeed.

Students studying at FedUni have access to state-of-the-art facilities, excellent resources and benefit from a personalised teaching approach. FedUni has been ranked number one for teaching quality seven years in a row¹ and has the highest graduate employment rate of any Victorian-based university².

FedUni maintains a strong focus on fostering innovation and employment. As the host of Australia’s largest regional technology park, we accommodate more than 30 companies including our signature tenant, IBM. FedUni and IBM work closely in information technology program delivery and in the placement of students.

Areas of expertise

- Business and Commerce
- Education and Early Childhood
- Engineering
- Health, Sport and Physical Education
- Humanities and Social Sciences (including Social Work)
- Information Technology
- Nursing
- Performing and Visual Arts
- Psychology
- Science
- Research

Research programs

Research at FedUni addresses a range of topics of national significance, with particular focus on matters of regional relevance.

With a large geographic reach and research capacity, FedUni has a strong commitment to providing students with a learning environment that is receptive to their needs and aspirations. It is also committed to research programs that deliver real outcomes and tangible benefits for regional sustainability.

---

² www.qilt.edu.au
Research areas include:

- Regional studies
- Community resilience
- Rural health and ageing
- Innovation in coal, geotechnical and hydro-geotechnical engineering
- Agricultural, environmental and animal science

Globally, FedUni pursues research collaborations with leading international institutions – including those with whom they have establish educational partnership – and use these to the benefit of their students, industries, businesses and organisations in regional Victoria who are seeking to access global exposure, interest and investment.

**International student services**

Known for its supportive and inclusive environment, FedUni is committed to ensuring that every international student’s experience is positive, enjoyable and memorable. Across the university, student support services include:

- Peer support programs
- Orientation programs on arrival
- Social activities
- Cultural and welfare support
- Individual assistance – academic and language support
- International Student Committee support
- Career and employment service
- Accommodation service

The International Student Support (ISS) office is an additional resource available to students before arrival and throughout the entire student journey to graduation. The ISS provides information to students about on campus services and programs, community living, transport, accommodation and social programs.

**Campuses**

FedUni is Victoria’s largest regional education institution, providing enriched regional living benefits for its students. Campuses include:

- Mt Helen, Ballarat
- SMB, Ballarat
- Camp Street, Ballarat
- Gippsland, Churchill

The main campuses are complemented by partner providers nationally and internationally, as well as online learning options.

La Trobe University has been one of Australia’s pioneering universities for over 45 years. Its graduates are renowned for their employability, for their deep understanding of the most pressing challenges facing the global community and their ability to address those challenges intelligently and decisively.

La Trobe’s culturally diverse campuses are home to more than 80 clubs and societies, covering almost every social, sporting, cultural, academic, and political interest imaginable. It also offers programs to develop student’s leadership skills as well as volunteer opportunities that can count towards their degree.

Areas of expertise

International students are an important part of our student community and make a major contribution in fields of study that are changing the world. Students can choose to study in areas including:

- Accounting and Financial Management
- Business and Marketing
- Management and Administration
- Science, IT and Computer Science
- Engineering
- Humanities and Social Sciences
- Education
- Health Sciences
- Law

Research programs

La Trobe University is committed to finding solutions to global problems and improvement in the welfare of human societies. It focuses on five cross-disciplinary research areas that build on its existing and potential strengths and address some of the most pressing questions affecting the future of human societies and their environments.

These research areas are flagship programs consisting of dynamic multi-disciplinary teams that will address pressing national and global problems; that will develop game-changing, long lasting partnerships and that will enable La Trobe to claim a strong competitive research advantage. The five research focus areas are:

- Securing Food, Water and the Environment
- Sport, Exercise and Rehabilitation
- Understanding Disease
- Building Healthy Communities
- Transforming Human Societies

La Trobe University students are ambitious and global thinkers. The University produces well-rounded graduates with the theoretical and practical insights to make meaningful contributions in their chosen fields.
Recent research projects undertaken in these focus areas include:

- major discovery into the detection and treatment of cancer
- advanced treatment methods for Hepatitis B patients
- wellbeing in rural Australia
- understanding sports injuries and rehabilitating injured sportspersons
- sustainable methods in agriculture and water conservation.

International student services

From day one, La Trobe makes sure students have a broad support network to help them get the most out of their university experience. They help students settle into life in Australia, make new friends, succeed in their studies and prepare for life after university. They have access to a dedicated team of support staff, a 24-hour student helpline, English language support, networking and volunteering opportunities. Students can also access help planning their career and finding a job either back home or in Australia.

MONASH UNIVERSITY

Monash University is Australia’s largest and most international university. Its extensive educational offering, delivered via ten faculties, includes undergraduate, postgraduate and research courses.

Monash is a research-intensive university, known for some significant and lasting discoveries that have delivered impact beyond the academic community. The university is home to a range of world-leading facilities and technologies, giving it wide-ranging capabilities across many fields, sectors and industries. Monash works with a variety of industry, government and community groups, allowing its researchers to share their discoveries with the world.

Monash is a truly global Institution, with five Australian campuses, a campus in Malaysia, a joint graduate school in China, a learning centre in Italy, and a research centre in India. Monash University courses are also delivered at other locations, including at Monash South Africa. At Monash, cultural experiences are lived, not described.

By institutional standards, Monash is young – not yet 60 years old. It combines the merits of youth – energy, ambition, and intellectual fearlessness – with the academic qualities of a world-class university. The attributes have combined into a university that delivers pioneering teaching methods, transformative research, and international reach.

Areas of expertise
- Accident, Injury and Trauma
- Cancer
- Health, Wellbeing and Social Change
- Infection and Immunity
- Neuroscience
- New Therapeutics
- Public Health and Health Systems Improvement
- Developmental Biology and Stem Cells
- Women’s, Children’s and Reproductive Health
- Advanced Manufacturing
- Aerospace
- Energy-Related Materials
- Nanomaterials
- Climate Change and Weather
- Energy
- Green Chemistry
- Sustainability
- Urban Water
- Cultural Heritage
- Development Economics
- Economic Modelling
- Education

Research programs

As Australia’s largest university, Monash offers a full suite of higher education, undertakes extensive research in a wide range of scholarship, and collaborates with industries, organisations and governments across the globe.
Monash delivers courses via 10 faculties: Art, Design and Architecture; Arts; Business and Economics; Education; Engineering; Information Technology; Law; Medicine, Nursing and Health Sciences; Pharmacy and Pharmaceutical Sciences; and Science. Cross-disciplinary work is encouraged.

Undergraduate students have several course options, including double degrees. Students are encouraged to study abroad – at another Monash campus, at one of our international centres, or at a partner institution.

Postgraduate students also have many options, such as professional master’s degrees, pure research degrees, and the Monash Doctoral Program, a PhD that combines a research project marked by excellence and originality with innovative training options that support graduate researchers in their career.

Monash has around 100 research centres and institutes, from the Monash University Accident Research Centre to the CRC for Water Sensitive Cities. Monash nurtures its researchers, and encourages them to look beyond traditional boundaries, create new frontiers and discover new ways of approaching both traditional and emerging fields.

Monash works to translate these research outcomes into solutions for local, national and global problems. It also actively assists collaboration between researchers and other organisations to create commercial opportunities from research findings.

International student services

Before arrival: Monash hosts pre-departure briefings in several countries, and provides in-language information about the university and Australia. Staff help students enrol and organise accommodation.

After arrival: Monash brings new students from the airport and helps them settle into their new home. Students have opportunities to make friends and attend events on campus and in the community.

At Monash: The University is committed to ensuring international students do well at Monash. It offers several ways to improve English and academic language skills, and provides advice about visas and residency, counselling, financial assistance, and anything else students need.

RMIT UNIVERSITY

RMIT is a global university of technology, design and enterprise. One of Australia’s original educational institutions founded in 1887, RMIT University now has more than 83,000 students.

RMIT offers postgraduate, undergraduate and vocational programs, enabling the option of work-relevant pathways between vocational and higher education qualifications. A range of scholarships are available to support education and research.

With three campuses in Melbourne, two in Vietnam and a centre in Barcelona, RMIT is a truly global university. The University also offers programs through partners in Singapore, Hong Kong, mainland China, Indonesia, Sri Lanka, India, Belgium, Germany, Austria and the Netherlands, and enjoys research and industry partnerships on every continent.

RMIT enjoys an international reputation for excellence in professional and vocational education, applied and innovative research, and engagement with the needs of industry and the community.

RMIT prides itself on the strong linkages it has forged over its 129-year history. Collaboration with industry is integral to the University’s leadership in applied research and education, and to the development of highly skilled, globally focused graduates.

Areas of expertise

- Art and Design
- Architecture and the Built Environment
- Civil and Structural Engineering
- Electrical and Electronic Engineering
- Mechanical, Aeronautical and Manufacturing Engineering
- Computer Science and Information Systems
- Business and Management
- Chemical Engineering
- Accounting and Finance
- Communication and Media Studies
- Education
- Statistics and Operational Research
- Mathematics and Physics
- Biological Sciences
- Health and Medical Sciences

Research programs

Through its global connections, RMIT brings unique capabilities and solutions to research through a transdisciplinary approach that considers both the technological and social dimensions of the work at hand.

Research is focused on solving global problems affecting communities and the environment through eight clusters.

- Advanced Manufacturing and Fabrication
- Advanced Materials
- Biomedical and Health Innovation
- Design and Creative Practice
- Global Business Innovation
- Information and Systems (Engineering)
- Social Change
- Urban Futures

The University has world-standard facilities and equipment for collaborative research, education, prototyping and product testing.

The first in Australia, RMIT’s MicroNano Research Facility is driving cutting-edge advances in micro and nano technologies.
Other facilities include:

- Microscopy and microanalysis facility
- Green engines research facility
- Australian Centre of Expertise in Noise Vibration Harshness
- Composite and polymer laboratory
- Spatial Information Architecture Laboratory
- The Virtual Experience Laboratory (VXLab)
- Flow Cytometry Core Facility

RMIT's Advanced Manufacturing Precinct was established to enhance Australia’s competitiveness in global markets. It offers access to research, practical skills training, product design and testing across the full manufacturing process with a focus on additive technologies, high-speed manufacturing and rapid prototyping.

International student services

RMIT is aware of the many challenges faced by international students and provides support every step of the way:

- Getting started guides, arrival services, wellbeing advisors, free study support and language assistance.
- Mates at RMIT – a peer-mentoring program which helps students settle into RMIT and Melbourne, meet other students and take part in activities.
- Cross-Cultural Communication program to help students develop key skills and knowledge for working in Australia.
- Industry Mentoring program, facilitating partnerships between students and RMIT’s extensive network of alumni and industry representatives.
- Jobs on Campus, enabling work opportunities for students within RMIT.

CRICOS: 00122A
Established as a university in 1992, Swinburne is committed to providing students with access to high-quality teaching, exposure to high-impact global research, and active engagement with both industry and the community.

As a testament to Swinburne’s drive for excellence, both the Times Higher Education Rankings 2016 and QS World University Rankings 2015 placed Swinburne amongst the top 100 young universities in the world. Swinburne has also received accolades for its Physics and Design streams. The Academic Ranking of World Universities (ARWU) 2015 names Swinburne amongst the world’s top 100 universities in the field of Physics, and the QS World University Rankings by Subject 2016 features Swinburne’s design school among the top 50 in the world. Additionally, Swinburne has been consistently ranked in ARWU’s top 400 for four consecutive years – a laudable achievement that places Swinburne amongst the top three per cent of universities in the world.

Swinburne believes that students should be equipped with career-ready skills and a wide breadth of knowledge. Work-integrated learning opportunities are available to all students. Undergraduate students can apply to undertake professional placements and internships, participate in real-life industry or community projects, and go on industry study tours that will expand their knowledge, sharpen their skills, and increase their professional capabilities. Postgraduate students can choose to undertake one of our professional programs, which include an executive career coaching program and the possibility of a professional placement.

**Areas of expertise**
- Arts and Social Sciences
- Aviation
- Business and Management
- Design
- Digital Media
- Education
- Engineering
- English Language
- Environment and Sustainability
- Film and Television
- Health
- Information and Communication Technologies
- Law
- Media and Communications
- Psychology
- Science

**Research programs**
Swinburne is a globally-engaged institution leading the way in research in the fields of science, technology, business, design and innovation.
In addition to traditional PhDs, Swinburne offers the following research programs: professional doctorates, master by research, partnered PhD programs (including joint PhDs and cotutelles), and offshore PhD programs.

The university hosts 15 research centres including:

- **Centre for Astrophysics and Supercomputing** – astronomy and astrophysics, in both the observational and theoretical domains
- **Centre for Micro-Photonics** – biophotonics and nanophotonics research
- **Centre for Quantum and Optical Science** – quantum gases, theoretical physics, ultrafast science, and applied optics.

Swinburne attracts world-class minds and participates in world-changing projects and partnerships in education and research. Some of our key partnerships are with the California Institute of Technology, Northeastern University, Beijing Institute of Technology, Tongji University, Indian Institute of Technology (Madras), Technical University of Delft, Tel Aviv University, Federal University of Rio de Janeiro. Swinburne is also a member of the Design Factory Global Network – a global network of universities across Europe, Asia, and the Americas that offer innovative education, research and partnerships.

**International student services**

Swinburne invests heavily in providing students and researchers with state-of-the-art facilities and equipment. Significant recent developments include the AUD$100 million Advanced Manufacturing and Design Centre (AMDC) and the AUD$140 million Advanced Technologies Centre (ATC) at the Hawthorn campus. The ATC houses leading-edge research facilities including the Smart Structures Laboratory, the first of its kind in Australia.

Students enjoy state-of-the-art multimedia lecture theatres, well-stocked libraries, up-to-date computer labs and wi-fi connectivity, as well as on-campus accommodation at Hawthorn.

Swinburne also offers a range of services and programs that create a supportive environment for students:

- Dedicated international student support team
- Accommodation counsellors
- Student Leadership and Volunteer Program
- Careers and Employment Services
- Health and counselling clinic
- Multi-faith prayer facilities
- Language and Academic Skill centre
- Maths and Statistics Help centre

**Campuses**

Swinburne’s main campus in Hawthorn is a vibrant community set among the cafés, restaurants, bars, boutiques and bookshops of Glenferrie Road. It is located just 10 minutes from the centre of Melbourne by train. There are two further campuses for local students located in the eastern suburbs of Melbourne and one in Sarawak, Malaysia.

THE UNIVERSITY OF MELBOURNE

The University of Melbourne is an internationally recognised research-intensive university with a tradition of excellence in teaching, research and research training, and community engagement.

Situated in the heart of the world’s most liveable city, the University is affiliated with more than 120 discipline-specific research centres covering fields as diverse as the humanities, engineering, medicine, physical and life sciences, law and education.

A foundation member of Universitas 21, the University supports some 250 university and faculty-level bilateral agreements with leading higher education institutions around the world to facilitate research collaboration, knowledge sharing and student mobility, and international exchange opportunities for almost 3,000 students each year.

High rankings in independent international surveys reflect the University’s strong research performance, excellence in learning and teaching and intellectual and social capital. In the prestigious 2014-15 Times Higher Education World University rankings of the world’s top 200 universities, the University ranked number 33 in the world and number one in Australia.

Melbourne offers broad undergraduate degrees and world-leading graduate programs delivered through graduate schools in professional and scholarly disciplines to more than 40,000 students annually.

With a tradition of excellence in teaching, research and research training and community engagement for over 160 years, the University is uniquely placed to respond to major social, economic and environmental challenges.

Areas of expertise
- Architecture, Building and Planning
- Arts
- Business and Economics
- Education
- Engineering
- Law
- Medicine, Dentistry and Health Sciences
- Music
- Science
- The Arts
- Veterinary and Agricultural Sciences

Research programs
Research at Melbourne is guided by its research and research training strategy Research @ Melbourne: Ensuring Excellence and Impact to 2025. The strategy commits to pursue three grand challenges as a public-spirited, research-intensive institution:
- understanding place and purpose
- fostering health and wellbeing
- supporting sustainability and resilience

The University maintains a comprehensive research base across a broad range of disciplines. This approach provides a critical advantage in tackling diverse research questions from a range of perspectives, while maintaining preparedness for unknown challenges and opportunities.
The interdisciplinary Melbourne Research Institutes bring together researchers from across the University to tackle key societal issues and challenges:

- Institute for a Broadband Enabled Society (IBES)
- Melbourne Energy Institute (MEI)
- Melbourne Neuroscience Institute (MNI)
- Melbourne Social Equity Institute (MSEI)
- Melbourne Sustainable Society Institute (MSSI)
- Melbourne Material Institute (MMI)
- Melbourne School of Government (MSoG)

At Parkville, the University serves as the dynamic hub of the Melbourne Biomedical Precinct – the largest cluster of medical researchers in Australia. Through initiatives such as the Doherty Institute for Infection and Immunity, the Melbourne Brain Centre and the Comprehensive Cancer Centre, the University is involved with precinct partners, such as the Walter and Eliza Hall Institute, the Bio21 Molecular Science and Biotechnology Institute, Peter MacCallum Cancer Institute, the Florey Institute of Neuroscience and Mental Health, the Murdoch Children’s Research Institute, Melbourne Health, and the many hospitals in the area, to find ways to improve the health of Australians and to discover new treatments and procedures.

International student services

The University of Melbourne values its international students and supports them throughout their studies. This includes:

- Pre-departure briefings – so students know what to expect when they arrive in Melbourne
- Free airport pickup – to ensure students arrive safely
- Arrival briefing – to provide information on health, safety and visas
- Transition workshops – covering academic, cultural and practical topics, including study skills and English proficiency
- Melbourne University Overseas Students’ Service – offering special support, fun events and activities
- Student support and emergency contacts – linking students to experienced staff who can assist with academic, personal and family matters and act as an emergency contact for family or friends overseas
- Migration advice and referrals – to specialist support services

Campuses

Seven campus locations across Melbourne and rural Victoria:

- Burnley
- Creswick
- Dookie
- Parkville (main city campus)
- Shepparton
- Southbank
- Werribee

UNIVERSITY OF DIVINITY

The University of Divinity offers courses from diploma through to doctoral level in theology, philosophy and ministry.

Founded in Melbourne in 1910, the University has a vibrant research culture and promotes the highest standards of scholarship among its students and staff. All students and staff join the University through one of its 11 Colleges, based in Melbourne, Adelaide and Sydney. Each College is a unique learning community drawing on one or more religious and spiritual traditions, and providing a high level of support and engagement with each student. Through the Colleges, the University is supported by a network of eight major Christian churches and over a dozen religious orders. The University is a unique ecumenical body that demonstrates how to live in unity with diversity.

The University aims to address the issues of the contemporary world through critical engagement with Christian theological traditions. Its graduates include theological scholars, Catholic, Protestant, and Orthodox ministers, teachers, hospital chaplains and pastoral carers, and employees and volunteers of not-for-profit agencies. Graduates of the University draw on their studies to learn, articulate, communicate, engage and serve.

Areas of expertise

- Theology
- Philosophy
- Ministry

Research programs

With research strengths in biblical studies, systematic theology, philosophy and ministry studies, the University of Divinity offers Doctor of Theology and Doctor of Philosophy programs, and Master programs by research in Theology and Philosophy.

Master programs by coursework include Theological Studies, Education and Theology, Divinity, and the Master of Arts program which offers specialities in social justice, biblical studies, pastoral care and spiritual direction. Graduate Certificates and Graduate Diplomas open up areas of study and provide options for vocational transition. Undergraduate courses provide excellent formation for ministry and leadership by offering programs in Theology, Ministry and Philosophy.

Students enrol through a particular College and may take units at other Colleges of the University. Some courses are available either wholly or partly online, and others are offered as intensives. Courses and units offered by each College can be found on the College’s website, accessed from the University of Divinity’s homepage.
International student services

The University offers a range of services to support and help international students to succeed in their studies. These include:

- A compulsory orientation program for all new international students
- Library orientation
- English language skills assistance
- Academic skills assistance
- Course advice and course planning
- Pastoral care
- Reference to other services and emergency contacts

These services are delivered by each College for their international students. The University also provides an after-hours hotline specifically for use by international students.

Campuses

University of Divinity Colleges are currently located at:

- Australian Lutheran College, North Adelaide
- Catherine Booth College, Ringwood
- Catholic Theological College, East Melbourne
- Morling College, Macquarie Park
- Pilgrim Theological College, Parkville
- St Athanasius Coptic Orthodox Theological College, Donvale
- Sentir Graduate College of Spiritual Formation, Kew
- Stirling Theological College, Mulgrave
- Trinity College Theological School, Parkville
- Whitley College, Parkville
- Yarra Theological Union, Box Hill

VICTORIA UNIVERSITY

Victoria University (VU), located in Melbourne, Australia is ranked in the world’s top four per cent of universities\(^1\) and is one of the largest and most culturally diverse universities in Australia.

VU was established as a university in 1990, with its predecessor institutions dating back to 1916. It has eight campuses across Melbourne and a ninth in Sydney. VU is the University of Opportunity, delivering a high-quality student experience that empowers a diverse student population to grow their capabilities and transform their lives for the better. It has 48,000 students enrolled in English language, diploma, bachelor, master’s and PhD programs across a wide range of disciplines. The University works in partnership with education partners in China, Malaysia, Vietnam and Singapore to deliver its courses to more than 8,500 students. VU also sends hundreds of Australia-based students annually to overseas partner institutions for short-term study and internships to prepare students with a global citizenship perspective.

VU has built a reputation for its industry and community connections which provide students with access to workplace learning opportunities, so they can graduate with real world experience. VU has more than 145,000 registered alumni, of whom more than 19,000 are residing overseas.

Areas of expertise
• Enterprise Resource Planning
• Sport and Exercise Science
• Accounting
• Economics and Finance
• IT
• Engineering
• Nursing
• Education
• International Community Development
• Beauty Services
• Marketing
• Communications
• Project Management
• Law
• Supply Chain and Logistics Management
• Water Management
• Digital Media

Research programs

AUSTRALIA’S LEADING SPORT UNIVERSITY
VU is Australia’s leading sport university, renowned for its extensive course offerings, internationally renowned academic staff, ground-breaking research, Australian and international partnerships, and comprehensive and specialised facilities. More of its graduates find work in the sport industry than sport graduates from any other Australian university.

COLLABORATIVE AND COMMERCIAL RESEARCH
VU takes a multidisciplinary approach to research and strives to develop innovative technologies that benefit students, industry and the broader community. VU researchers are working alongside pre-school teachers, Olympic athletes in performance training, Timor-Leste farmers on permaculture practices, and in collaboration with the Chinese Government on environmental sustainability. VU’s partnerships are viewed as long-term, mutually beneficial collaborations, inspiring and supporting research students to set new standards and make a substantial contribution to their field. The collaborative and commercial research activities have real world applications and aim to find evidence-based solutions to important contemporary challenges in Australia, Asia and globally.

---

\(^{1}\) QS World University Rankings 2015/2016
TRANSNATIONAL EDUCATION

VU pioneered transnational education partnerships in Asia, and has delivered education globally for over 20 years through long-standing education, business and government partnerships. Many of VU’s degrees delivered outside of Australia incorporate defined pathway arrangements from English language to diploma to degree. These partnerships also provide students an opportunity to complete their VU degrees either at one of our partner institutions or at VU in Melbourne.

International student services

VU supports students from their arrival until they become alumni of the University, ensuring that their time as a student at VU is as rewarding as possible. Staff understand the challenges international students face as they adjust to a new culture and environment, and make new friends. VU offers:

- free airport reception service on arrival
- an orientation program to assist students with their transition to living and studying in Melbourne
- assistance and support on cultural issues, study concerns and general questions
- a range of social activities and programs
- an after-hours contact number

Campuses

Victoria University has nine campuses, with eight campuses in Melbourne and one in Sydney. The Melbourne campuses are:

- City Flinders
- City King
- City Queen
- Footscray Park
- Footscray Nicholson
- St Albans
- Sunshine
- Werribee

BENDIGO KANGAN INSTITUTE

Bendigo Kangan Institute is one of Australia’s largest and most trusted education and training providers, offering a wide range of courses from English language programs to internationally recognised certificates and diplomas.

Formed from the merger of Bendigo TAFE and Kangan Institute in 2014, Bendigo Kangan Institute has more than 80 years of educational excellence, with qualifications giving students real skills, real pathways and the confidence to succeed in life.

KANGAN INSTITUTE

As one of Australia’s largest government TAFEs and a major training provider for the automotive, aviation, fashion and health industries, Kangan Institute has been delivering vocational education and training services internationally for over 15 years.

Kangan’s health programs are delivered at a specialist campus with state-of-the-art equipment. Courses are developed and delivered in close collaboration with industry and in conjunction with Melbourne’s biggest hospitals and healthcare providers.

BENDIGO TAFE

Located in one of the largest regional centres in Victoria, Bendigo TAFE is a large and diverse provider of vocational education, training and assessment services. Bendigo TAFE is fully accredited to deliver nationally recognised qualifications from Certificate I through to advanced diploma.

Bendigo TAFE is experienced in providing delivery of vocational training in countries other than Australia, through auspicing arrangements with other institutions. Bendigo has tailored, developed and hosted skills-deepening study tours. It also provides articulations to Victorian universities including La Trobe University, Federation University and Deakin University.

Areas of expertise

KANGAN INSTITUTE

- Nursing
- Aged Care
- Automotive
- Fashion and Textiles
- Management
- Hospitality
- Accounting
- Building Construction
- Computer Systems Technology

BENDIGO TAFE

- Agriculture – beekeeping, wool classing and wool preparation, farm chemicals, pest control, flora and fauna
- Horticulture – soils and plant nutrition, costing and estimation, plant identification, landscape design and construction
- Conservation Land and Management – plant identification and health, water management, safe use of chemicals, environmental law
Program delivery

KANGAN INSTITUTE

Kangan Institute’s Centre for Health and Community and the Automotive Centre of Excellence provide all stages of training, from conceptualisation through to needs analyses, resource development, design, delivery and evaluation. Kangan’s integrated approach provides access to the full range of education and consultancy services including training needs assessment, advice about the methods of delivery and assessment, industry specific skill gap training, customised resources and integrated evaluation and continuous improvement strategies.

BENDIGO TAFE

Bendigo TAFE offers a range of courses to international students including Beauty, Graphic Design, Building Design, Automotive, English courses and Information Technology. These courses are delivered at the state-of-the-art facilities located on campus in Bendigo.

Education programs include a range of courses in Agriculture, Horticulture, Conservation and Land Management. In studying Agriculture, students learn basic farming skills in fencing, tractor operation, welding and machinery maintenance. Horticulture courses provide a wide range of skills in areas such as complete landscape construction, soils and plant nutrition, costing and estimation, and plant identification. Courses in Conversation and Land Management have a strong industry focus and are highly regarded by industry. They encompass a wide variety of specialities and techniques including biodiversity, plant identification, water management, safe use of chemicals and environmental law.

International student services

Student enrolled at Bendigo Kangan Institute are offered services by the Student Support and Recreation unit which include support services, resources, campus activities, trips and tours, sporting competitions and student publications.

In addition to the institute’s free Student Support and Recreation services, Bendigo Kangan Institute’s International Student liaison officers attend to the welfare needs of international students. The liaison officers visit international students at all campuses every week, listening to their concerns, offering counselling and linking students to the services they need.

Box Hill Institute is a government registered and funded training provider, offering modern facilities, courses of high standard, credentialed teaching staff, excellent security and value.

With more than 45,000 students, Box Hill Institute is one of the largest Vocational Education and Training and higher education providers in Australia with campuses in Box Hill and Melbourne City.

The Institute's industry partnerships give students hands-on experience with current technology and processes. Students gain real industry experience by undertaking practical work placements and project based activities in their course.

In the transnational area, Box Hill Institute delivers courses to more than 5,000 students worldwide. With more than 20 global educational partners our strong international campus partnerships help us to deliver Australian qualifications issued by Box Hill Institute to students in their homeland – from certificate to advanced diploma level qualifications. International campus partners are located in Kuwait, Saudi Arabia, UAE, Malaysia, Singapore and Vietnam.

Box Hill Institute was the 2015 Victorian International Education Awards winner for Excellence in International Education (TAFE) and International Student of the Year (VET), and a 2015 Australian Training Awards finalist for International Training Provider of Year.

- Science
- Sport, Fitness and Health

Established in 1924, Box Hill Institute (BHI) is a premier education provider based in Melbourne, Victoria with a global network.
Program delivery
Box Hill Institute’s formidable scope includes ELICOS, certificate, diplomas and advanced diplomas to associate degrees, bachelor degrees as well as postgraduate studies.
BHI has a unique approach to training with both simulated and authenticated training environments. The simulated environment provides an industry setting for students to learn safely, while an authenticated training workplace provides real work experience in a commercial business environment of industry standard. BHI co-locates the workplaces on its campuses, including the ultra-modern AUD$41 million Integrated Technology Hub (ITH), a Cisco Academy and an Aveda spa and beauty institute.
Box Hill Institute delivers employment focused courses so that graduates are work ready and equipped with the skills they need to succeed. 88 per cent of BHI graduates go on to full-time employment or further study within six months of completing their course (NCVER, 2014). The BHI teaching style is practical, personal and flexible. Training and learning is always guided, collaborative and hands-on.
Box Hill Institute also has a vast number of community and industry partners to help students, and students gain current industry best practice training in real business locales.

International student services
There is a vibrant community of international students from more than 50 countries studying at Box Hill Institute. There is a range of services on offer to international students including free airport pickup, free accommodation placement, orientation programs, language and academic support, as well as social activities to enhance the students experience.

CHISHOLM INSTITUTE

Chisholm is the premier education and training institute in the south-east of Melbourne, Victoria. Chisholm is owned by the Victorian Government and operates under strict government regulations.

Chisholm serves one of Victoria’s most culturally diverse and fastest growing regions, with modern education and training facilities across seven campuses.

Chisholm offers vocational and higher education programs. Each year it delivers courses to more than 35,000 students, with over 65 courses offered to international students. Chisholm students learn using the latest equipment with industry skilled teachers who deliver hands-on training that simulates real workplaces. They gain nationally recognised qualifications that lead into work or further study.

The location of Chisholm’s campuses in the south-east growth corridor of Melbourne offers many opportunities in a range of growing and established industries. In the heartland of Melbourne’s multicultural community, the population of the south-east is diverse with a wide variety of shops and services catering to the local community.

Chisholm is the 2014 Australian and Victorian Large Training Provider of the Year, an award that recognises its leading status in education and training.

Program delivery

TRAINING CENTRES

Chisholm’s state-of-the-art purpose built facilities meet industry and student needs, simulate real-world workplaces and maximise student employability. They include:

- Automotive and Logistics Centre
- Berwick Technical Education Centre
- Centre for Integrated Engineering
- Centre for Sustainable Water Management
- National Precision Growing Centre
- Trade Training Centres
- Berwick Trade Careers Centre
These training facilities provide industry standard equipment to accommodate vocational training activities on behalf of industry and local community needs. Chisholm staff deliver integrated trade training programs and post-trade pathways across high priority areas such as engineering, automotive, water management and horticulture, carpentry, electrical, plumbing and bricklaying.

Chisholm offers three niche higher education degrees in Engineering, Community Health and Interactive Media and Design. It is also proud to be delivering the La Trobe University Bachelor of Accounting. Chisholm also partners with several internationally renowned universities, including Deakin, La Trobe and Monash, to provide students with a wide range of degree pathway options.

International student services

Chisholm has a wide range of services for international students. Students gain access to detailed course information, pre-departure information, accommodation assistance, airport pick-up, orientation, international student course co-ordinators, English and study skills, employment services, myjobs hub, student counselling, recreation facilities and activities, libraries, study areas, computer labs, free campus wifi, student cafes, campus bookshops and prayer rooms.

The Student Assistance line is a 24-hour free service for all international students. Students can also visit, phone or email the international student office if they require help. Staff also travel to campuses to meet students as required.

Campuses

Chisholm has seven locations in Melbourne’s south east: Dandenong, Frankston, Berwick, Cranbourne, Mornington Peninsula, Bass Coast and Chisholm@311. Chisholm also delivers internationally, on-line and in the workplace.

Established on 1 May 2014 following the amalgamation of Advance TAFE and GippsTAFE, Federation Training offers unprecedented opportunities for both local and international students seeking an exciting learning environment.

With ten campuses located from Melbourne’s outer east to Lakes Entrance in eastern Victoria, Federation Training offer a diverse range of programs and specially designed learning environments; providing students with the opportunity to get hands on and develop real skills and experience in the industry of their choice.

Flexible study options mean students can complete their course in a way that best suits their lifestyle. Students can also choose to study a Federation University degree at Federation Training; with flexible pathway options taking students from a diploma to a bachelor degree in just two to three years.

Federation Training has also been recognised for its ability to develop highly flexible and responsive programs suited to the international marketplace. The development of long-term, mutually beneficial and respectful relationships with offshore partners has allowed or contextualisation of training to suit specific industry demand.

Areas of expertise

- Trades
- Health
- General Education
- Business
- Apprenticeships
- Short Courses
- Learning Pathways
- Online Courses
- Auspicing agreements with international training providers
- Consultancies

Program delivery

The diversity of courses and the range of qualifications offered by Federation Training are complemented by expertise in e-learning technologies, blended delivery methods and the design and delivery of learning environments aligned to the needs of the client.

Federation Training works with clients to ensure that the most effective learning and qualification outcomes are achieved. Each program is unique, and is created to meet the needs of industry and individuals. Federation Training will soon apply this same principle to its international offerings, in order to meet the specific needs of students and industry.
Federation Training offers students a regional learning experience, with ten campuses located throughout Gippsland. Federation Training has both the facilities and technological capabilities to accommodate students, whilst offering a high quality learning experience.

With a recent multi-million dollar transformation, Federation Training’s Chadstone campus now provides students with unprecedented access to authentic simulations of real work environments and scenarios. Students also have access to a fully equipped cafeteria, administration area, a 110 seat lecture theatre and conference centre.

Internationally, Federation Training enjoys well-established relationships with overseas partners, private companies and training providers.

**Campuses**
Federation Training has 10 campuses, as well as a handful of specialist centres, located in eastern Victoria:

- Chadstone
- Warragul
- Leongatha
- Yallourn
- Morwell
- Traralgon
- Sale
- Bairnsdale
- Forestec
- Lakes Entrance

GORDON INSTITUTE OF TAFE

Located under an hour from Melbourne the Gordon Institute of TAFE, or as it is locally known ‘The Gordon’, is one of Australia’s largest regional technical and further education institutes.

The Gordon is a public education and training organisation operating under Victorian Government legislation and was established in 1887. With approximately 650 staff and over 19,000 enrolments in 2014, the Gordon plays a key role in proactively assisting the region’s economic and social development. The Gordon is based in Geelong and has two major campuses.

Geelong has major port and transport facilities, is close to the bay and surf beaches, and is the second largest city in Victoria. It is a vibrant university town with restaurants, cafes, annual festivals and events. Living in Geelong offers a safe and affordable lifestyle for students, with many opportunities for casual and part-time jobs.

The Gordon is focused on delivering training linked to job outcomes. The Institute excels at hands-on learning and takes pride in graduates being work-ready. Gordon students continue to win state and national awards for excellence with many graduates going on to make substantial contributions to their respective communities and industries.

The Gordon provides vocational skills training to many of the region’s secondary schools, and works in partnership with Deakin University, employers and the community to deliver positive learning outcomes. The Institute also continues to focus on building its international delivery, particularly in Asia.

Areas of expertise
- Advanced Design and Building
- Animal Studies, Horticulture and Conservation
- Art and Design
- Automotive and Engineering
- Building and Construction
- Business and Training
- Children Services
- Community Services and Aged Care
- Cookery and Hospitality
- English Language Intensive courses
- Hairdressing, Beauty Therapy and Makeup
- Health, Nursing and Science
- Information and Communication Technology

Program delivery
The Gordon provides a supportive environment for international students to enjoy their study experience and excel at their studies. The Institute favours hands-on training and project based learning. Time spent out in the workplace, site visits and study tours are included in most courses, as is some component of online learning. This means international students gain real skills and experience that can lead to an exciting and rewarding career.
The Gordon is also a highly regarded provider of English Language Intensive Courses for Overseas Students (ELICOS) to students from around the world. General English language courses provide the resources for students to improve their language skills for social and travel purposes. The English for Academic Purposes course improves students’ employment prospects in their home country or prepares them for study in Australia. Students can develop their English language skills with qualified and experienced staff in a warm and friendly environment.

The Gordon delivers off-shore Diploma level programs in two provinces in China. Courses offered include Accounting, International Business, Food Services and Technology. Teacher training programs for both onshore and off-shore participants have been provided for many years, and use a combination of face-to-face workshops and online learning.

International student services

The Gordon provides international students with the following services:

- 24-hour student help-line
- Student residence (on-campus accommodation)
- Homestay booking
- Airport welcome and transfer booking
- Orientation and enrolment
- Careers advice and resume assistance
- Library and internet facilities
- Study support centre
- Bookshops
- Cafeterias
- Complaints and appeals procedure

STUDY SUPPORT

The Gordon’s experienced Study Support staff provide a confidential mentoring service and assist students to develop a range of study skills, bridge gaps in knowledge and build confidence for ongoing learning.

STUDENT SPACE

Student lounges, cafes and kitchenettes are provided at each campus. The Gordon also provides dedicated quiet rooms for the purposes of prayer, breastfeeding and meditation.

GOULBURN OVENS INSTITUTE OF TAFE

Goulburn Ovens Institute of TAFE (GOTAFE) is the largest tertiary education provider in northern Victoria offering over 250 courses to over 20,000 students annually.

Primarily based in northern Victoria, GOTAFE campuses are located in Shepparton, Wangaratta, Seymour and Benalla. Specialised campuses are located in Warragul, Werribee and Terang.

The strength of GOTAFE lies in its experienced, skilled and innovative staff who provide training and skills development to students, industry clients and the wider community through innovative, customised and quality assured training programs.

GOTAFE delivers unique programs including the National Centre for Equine Education (NCEE), National Centre for Dairy Education (NCDE) and the GOTAFE Regional Academy of Dramatic Arts (GRADA).

Specialised departments including the Centre for Koori Education and the Multicultural Education Centre have been established to meet the needs of Australia’s diverse community.

GOTAFE is recognised as leading the way, providing secondary school students with the opportunity to access quality vocational education through collaborative ventures. The Technical Education Centre works directly with regional secondary schools to provide students with an important pathway into a trade career.

GOTAFE is committed to deliver quality vocational training and tertiary education that responds to the needs of industry, community and individuals in the regions in which they serve.

Areas of expertise

- **Business** – Administration & Management, Finance and Information Technology
- **Creative Services** – Art, Hairdressing & Beauty and Performing Arts
- **Education** – Koori Education, Multicultural Education and Teaching & Training
- **Health & Community** – Community Services, Health & Nursing and Sport & Recreation
- **Hospitality** – Baking & Patisserie, Hospitality & Commercial Cookery and Tourism & Events
- **Rural Industries** – Agriculture, Animal Sciences, Dairy, Equine and Horticulture
- **Technical Trades** – Automotive, Building & Construction and Engineering

Program delivery

GOTAFE has entered a new era of educational innovation that aims to be flexible, creative and provide outstanding service to students, employers and industry.

GOTAFE operates a number of specialist training facilities including:

- The National Centre for Dairy Education (NCDE) operates through a national alliance with Dairy Australia. The NCDE provides strong leadership in industry education and training to develop the capability of the Australian dairy industry.
• The National Centre for Equine Education (NCEE) delivers world class equine education in the areas of breeding, health and performance. The NCEE has close affiliations with leading industry bodies including Racing Victoria Limited (RVL), Thoroughbred Breeders Victoria, Wangaratta Equine Hospital, Australian Veterinary Association, Pony Club Victoria, Horse Riding Club Association Victoria (HRCAV) and Equestrian Australia.

• The Centre for Koori Education has been recognised for its achievement in establishing improved pathways and employment outcomes for local Koori students.

• The GOTAFE Regional Academy of Dramatic Arts (GRADA) is the premier destination for Performing Arts and Theatre Production training in regional Victoria. GRADA students are provided with hands-on experience in all levels of performance and performance production.

GOTAFE is proud of their strong relationships with universities, in particular La Trobe University, Charles Sturt University, Federation University and the University of Melbourne. These partnerships include the development of integrated vocational and university qualifications to provide regional and rural Victorians with more affordable and convenient choices to obtain nationally recognised qualifications within their local community.

Holmesglen Institute

Holmesglen is one of the largest vocational and higher education providers in Victoria, offering over 600 programs across our Chadstone, Moorabbin, Waverley and City campuses.

As a leading government institution in Australia, Holmesglen has welcomed international students to its Melbourne campuses for over 30 years and takes great pride in engaging and supporting its students to achieve their lifelong educational and career goals.

Holmesglen enjoys a reputation in Australia and throughout the world as a centre of excellence and innovation in the design and delivery of quality educational programs. Offering an extensive range of vocational and higher education courses, Holmesglen utilises the most up-to-date instructional technologies, with all courses accredited by the Australian Government.

Studying at Holmesglen is not just about gaining a qualification; it’s about being equipped with the confidence and skills to work in today’s fast paced world. Students will learn from teachers with industry experience, work on real life projects or train in simulated work environments.

Investment in dedicated facilities ensures students get every opportunity to get the hands-on skills needed for a successful career. These facilities include a dedicated health precinct with nursing wards and simulation centre at the Moorabbin campus; a wellness clinic at the Waverley campus and 25,000 square metres of simulated trade workspaces at the Chadstone campus.

Areas of expertise

- Nursing and Health Sciences – the Moorabbin campus houses the southern hemisphere’s most advanced Health Sciences Education facility
- Building and Construction
- Hospitality
- Horticulture
- Fashion
- Early Childhood Education

Program delivery

Building, construction and architectural design – including building design, surveying, construction management and economics, facilities management and the building trades such as carpentry, plumbing, bricklaying, plastering, roofing, glazing and tiling

Business and finance – including accounting, human resource management, business administration, marketing, public relations, banking and financial services, international business and management

Arts and design – including graphic design and printing, animation, screen and media, professional writing, fashion design and stage management

Furnishing and decoration – including interior decoration and design, furnishing design and technology and furnishing trades such as cabinet making, upholstery, furniture machining and finishing
Community services and health sciences – including allied health, nursing, dental technology, pathology and laboratory science, aged care, youth work, justice, disability work and mental health work

Education and languages – such as early childhood education, English as a Second Language, English language teaching, reparatory and foundation programs and Chinese language

Electrotechnology and engineering – including air conditioning, electrical and electronics, renewable energy technologies, fabrication and mechanical engineering

Computing and information technology

Fitness and wellbeing – such as sport, recreation, fitness, massage and naturopathy

Horticulture and environment – including floristry, conservation, horticulture, arboriculture and landscape design

Hospitality, tourism and service skills – such as security, cookery, bakery and pastry, housekeeping, food and beverage service, hospitality management, events management, tourism sales and service

International student services

Holmesglen's international student social inclusion program assists international students to integrate effectively into Holmesglen and the local Melbourne community. The program provides students with access to information, provides guidance and support to encourage greater social networks that enable positive adjustment to a new life in Melbourne.

The program includes workshops on topics such as renting, getting jobs, academic study programs and effective study techniques, stress and meditation, creating positive social relations and improving spoken English. Social inclusion activities encourage international students to join social clubs, go on overnight camps and fun weekend trips.

Campuses

The Institute operates from four major Melbourne metropolitan campuses in Chadstone, Glen Waverley, Moorabbin and the CBD and is supplemented by a Rural Learning Centre in northeast Victoria. In addition, Holmesglen delivers training in a broad range of workplaces Australia-wide, international project postings and offshore partner institutions.

From its early beginnings in the 1800s, South West TAFE has grown to become the largest and most well regarded provider of vocational education and skills training in south west Victoria. South West TAFE is known for going a step further than other training providers to ensure that the skills training it provides is for in-demand jobs, and they actively develop training programs to help address regional skills shortages. As a result, graduates have a very high level of employability and excel in their chosen field.

South West TAFE has recently launched a new program called Industry Connect. This program aims to establish links with industry to ensure that the training provided is responsive to meet industry needs. Industry Connect signifies the commitment of South West TAFE to work closely with business leaders in developing regional growth strategies and prosperity across the south west region.

South West TAFE embraces the world of learning and all it has to offer. It is determined to provide students with the very best vocational education, training and career opportunities.

**Areas of expertise**

South West TAFE offers a wide range of accredited qualifications, short courses and stand-alone units from industry training packages. In addition there are also pre-apprenticeship, apprenticeship, traineeship, vocational and graduate studies, industry certificates and TAFE in Schools programs.

- Beauty and Hairdressing
- Business
- Design (Arts)
- Finance
- Hospitality
- Massage
- Tourism
- Automotive and Engineering
- Building and Construction

• Meat Processing
• Aged Care
• Community Services
• Disability Services
• Nursing
• Health Administration
• Allied Health

Program delivery

Study modes are flexible and include offshore, on-campus, off-campus, onsite and online learning.

South West TAFE has engaged in many study tours in teacher training and looks to capitalise on our tourism and hospitality links to provide more study tours in the future.

South West TAFE has been delivering transnational education since 1994 in countries including China, Malaysia, Vanuatu and the Philippines and is building on networks in Sri Lanka, South America and the Netherlands. South West TAFE engages in the quality provision of training in Food Security and Processing, Meat Training, Nursing, Computer Systems Engineering, Financial Services and Agriculture.

Campuses

South West TAFE campuses are located in Warrnambool, Portland, and Hamilton, with facilities and services set to expand as the region grows.

South West TAFE is not a CRICOS registered provider.
SUNRAYSIA INSTITUTE OF TAFE

Sunraysia Institute of TAFE (SuniTAFE) delivers vocational education and training across a broad spectrum of industries.

With over 8,000 enrolments annually, it is the leading provider of this training in north west Victoria. SuniTAFE’s two largest campuses, in the Victorian towns of Mildura and Swan Hill, have a mix of domestic and international students from 16 different countries. They provide a regional training experience in vibrant, multicultural communities. The campuses, 220 kilometres apart, are situated on the banks of the Murray River, one of Australia’s principal waterways and a significant natural asset. The region is a major horticultural producer, supplying both local and export markets. As an added incentive for students, the cost of living tends to be less than in the larger metropolitan areas, without compromising the range and quality of services available.

SuniTAFE seeks to exceed its student and customer expectations at all times. The Institute is widely recognised as a high quality training provider and has won several notable awards, including the CISA Excellence Award for Australia’s Best International (VET/TAFE) Student, the Victorian International Education Award for Victoria’s Best International VET Student (twice) and the Australian Training Award for Australia’s Best School-based Apprentice.

Areas of expertise
- Education and Languages (ELICOS)
- Accounting
- Management
- Information Technology
- Design
- Automotive
- Aged Care
- Children and Community Services
- Conservation and Land Management
- Horticulture
- Hospitality

Program delivery
SuniTAFE offers vocational courses to international students at certificate, diploma and advanced diploma levels. These courses provide industry recognised qualifications, covering a range of in-demand disciplines that prepare students with the practical skills and knowledge required for particular jobs. Courses at diploma level or above may also give credits to a university degree program with one of SuniTAFE’s university partners.
Program delivery is very hands on. Depending on their program, students will have access to a fully equipped kitchen and training restaurant, hairdressing salon, beauty salon, 30 hectare farm, automotive workshops and design studio. Classes tend to be small and teachers are able to provide individual attention to students to help them succeed. Support teachers are available to give additional assistance in adjusting to the Australian learning environment. These teachers impart strategies associated with classroom participation, effective study, and assessment techniques. They can also arrange for English language and numeracy support.

Delivery is equitable for all students and takes into account cultural and linguistic needs. Assessment is ongoing so that students can effectively monitor their progress as their course proceeds. A wide range of assessment practices are used, including practical demonstrations, problem solving, journals, folio preparation, presentations, case studies and group activities.

The Mildura campus has a Learning Resource Centre comprising a bookshop, library, printing and photocopying facilities, and a computer room. Many courses make extensive use of information technology and the Learning Resource Centre also provides support in the use of this technology.

International student services

SuniTAFE has a wide range of support services to help students adapt to life in Australia. Assistance is available with transport, banking, emergency and health services, medical insurance, legal services, accommodation and employment. Qualified support staff include counsellors, welfare workers and disability support workers who collectively provide assistance with budgeting, time management and crisis management.

Residential accommodation is available at the Mildura campus, together with a recreation room, restaurant and canteen. All campuses are wi-fi connected, allowing access to the internet on personal computers and mobile devices from anywhere on campus.

Campuses

- Mildura
- Swan Hill

Victoria Polytechnic is the TAFE division of Victoria University located in Melbourne, Australia. Victoria University is one of the largest and most culturally diverse institutions in Australia.

Victoria Polytechnic builds on Victoria University’s proud 100 year history of excellence in the delivery of vocational education, providing students with tailored, work-based and flexible courses. Victoria Polytechnic delivers courses across six Victoria University campuses located in the central business district and western region of Melbourne.

It has approximately 10,000 students enrolled in TAFE programs across a wide range of areas.

Victoria Polytechnic provides targeted, work-based and flexible vocational education. Courses are designed to facilitate each student’s own unique skills acquisition journey. Victoria Polytechnic empowers students to reach their full potential through a suite of current, relevant and outcome focused programs.

Victoria Polytechnic offers innovative, blended and digital modes of delivery, world-class training facilities and programs that prepare students for the workforce. Programs and solutions meet the needs of individual learners, industry and the community.

Areas of expertise
- Business, Law and IT
- Community Services
- Creative Arts
- Early Childhood and Education Support
- Hair, Make-up and Beauty
- Logistics and Supply Chain Management
- Nursing and Health
- Sports, Massage and Fitness
- Trades
- Transition Education

Program delivery
Victoria Polytechnic is committed to delivery models that reflect contemporary work and learning practices, providing students and employers with the flexibility they expect and need.

The principles underpinning this approach to design and delivery are:
- Flexible, modular, building-block delivery with multiple entry and exit points
- Experiential learning underpinned by mentoring and coaching
- Industry-based or simulated delivery, projects and assessments
- High quality eLearning and blended delivery
- Social connectedness
- Embedded Language, Literacy and Numeracy to maximise success
- Streamlined Skills Recognition (RPL)

Victoria Polytechnic’s commitment to the Blended Learning model provides increased flexibility with regards to where and when students engage with learning materials. The approach recognises that people learn differently and we provide learning solutions that meet the needs of various learning approaches and preferences.

CUSTOMISED INDUSTRY SOLUTIONS
Victoria Polytechnic’s engagement with industry includes the delivery of high quality organisational development programs. Industry based training is delivered to clients nationally and internationally, whilst working closely with community, government and commercial partners.

Industry programs focus on unlocking potential productivity gains within organisations. Research demonstrates that training and development is the key to gains in productivity. A focus on leadership and management training is central to improvements in productivity, innovation and growth.
Victoria Polytechnic’s purpose-built learning environments feature the latest technology, state-of-the-art facilities and equipment. The facilities inspire learning and reflect the modern workplace. The facilitators are highly trained and experienced and are actively involved in commercial work in industry. They are regularly engaged as industry experts, offering industry specific expertise and knowledge to our students.

Victoria Polytechnic’s Building and Construction facility at the Sunshine Campus is a multi-million dollar sustainable, state-of-the-art training facility. Victoria Polytechnic boasts three fully functional Nursing Laboratories and an in-hospital Simulation Laboratory. The Beauty Day Spa and Salon, Dermal Clinic, Hairdressing Salon, Massage Clinic and Nutrition Clinic are purpose built facilities where our students provide services to members of the public and observe service delivery.

Students have full access to state-of-the-art music rehearsal, production and recording studios. Newly refurbished visual art facilities include printmaking, life drawing and individual studio areas. The games development and graphic design courses are delivered using industry standard equipment and software. The Design Studio offers a simulated work environment for design students and produces commercial work for internal and external clients.

International student services

Victoria Polytechnic supports students from their arrival until they become alumni, ensuring that their time as a student is as rewarding as possible. Staff understand the challenges international students face as they adjust to a new culture and environment, and make new friends.

It offers:
• free airport reception service on arrival
• an orientation program to assist students with their transition to living and studying in Melbourne
• assistance and support on cultural issues, study concerns and general questions
• a range of social activities and programs
• an after-hours contact number

Campuses

Victoria Polytechnic currently delivers courses at six of the eight Victoria University campuses in Melbourne, including
• City King
• Footscray Park
• Footscray Nicholson
• St Albans
• Sunshine
• Werribee

WILLIAM ANGLISS INSTITUTE

Established in 1940, William Angliss Institute is a specialist training provider for the food, tourism, hospitality and events industries.

Offering short courses, certificates, diplomas, advanced diplomas and bachelor degrees, William Angliss Institute enrolls approximately 18,000 students annually.

William Angliss Institute also conducts compliance and industry training with flexible learning solutions and training delivery options to suit the needs of organisations across Australia. Offshore, international partnerships continue to grow with training programs delivered globally.

William Angliss Institute is the recipient of many awards for outstanding program delivery including:

- the Excellence in International Student Employability and Career Development award, in the provider category of the Victorian International Education Awards 2014
- the Angliss Restaurant was awarded the 2014 Savour Australia Restaurant and Catering HOSTPLUS Award for Excellence for a Victorian Restaurant in a Training Institute
- a finalist at the 2014 Australian Training Awards, in the International Training Provider of the Year Award category, and at the Australian Event Awards 2014, William Angliss Institute was a finalist in the Best Education or Training program category
- Angliss Spa won the Best Spa Education Institute – Certificate/Diploma at the Australasian Spa Association (ASpa) Awards of Excellence 2014 for the third consecutive year.

Areas of expertise
- Food
- Hospitality
- Tourism
- Events

Program delivery

William Angliss Institute’s facilities include innovative live and simulated classrooms with state-of-the-art information technology, designed to help students perform in real workplaces. The Melbourne campus has three operational restaurants and a conference centre. At the Melbourne and Sydney campuses, students experience first-hand the thrill of creating delicious dishes and serving the tables of satisfied patrons. Students learn how to cope with the day-to-day challenges of food service and event management at real events. These cutting edge facilities are about making students job-ready with the tools needed to follow their passion anywhere in the world.

Centre for Food Trades and Culinary Arts – since 1940, the Institute has been a recognised leader in education in the cookery, patisserie and food processing areas. Producing some of Australia’s best-known chefs, the Institute continues to nurture successful graduates with hospitality training and food courses.
Centre for Tourism and Hospitality – careers in tourism and hospitality provide students with a multitude of options, and practical skill based training ensures graduates are prepared for whatever adventure they are seeking.

Event Management – award winning programs from diploma to degree are designed to equip students with skills and knowledge in a range of subjects, from on-site event management to project scheduling and supplier management.

Angliss International Hotel School – new in 2016, the Angliss International Hotel School offers students an intensive one year Diploma of Hospitality, delivered on campus and via an industry-based internship with a premier hotel partner.

International student services

William Angliss Institute provides a range of services and assistance to students to help them with their studies and professional and personal life.

Angliss International Office is responsible for the admission, orientation and welfare of all international students. They provide advice on matters relating to program admission, student visa regulations, ESOS requirements, payment of fees and further study options for international students. In conjunction with Student Services at the Institute, the Angliss International Office provides international students with important support services and pastoral care while students are studying at the Institute.

WODONGA INSTITUTE OF TAFE

The main campus of Wodonga Institute of TAFE is located in Albury-Wodonga, one of the most vibrant and fastest growing regional communities in Victoria.

Wodonga Institute of TAFE provides high quality, award winning vocational education and training consisting of nationally accredited qualifications, along with customised skills-based training solutions to over 19,000 students annually. The Institute has strong partnerships with many higher education institutions providing pathways into many Australian university degree courses.

The Institute’s main campus is situated on the central transport corridor between Melbourne and Sydney, and it is complemented by other campuses within Victoria and Tasmania. High quality training is delivered across Australia, and graduates are in demand because of their exceptional skill level and current industry knowledge. Wodonga TAFE offers hands-on industry experiences and simulated training environments as a standard part of its delivery.

Training services include fully-equipped workshops, computer laboratories and specialised ‘hands-on’ industry-standard facilities across its campuses, including driver training circuits at its motorsport parks and driver training facilities, and fully equipped warehouses for forklift and warehouse management training.

Wodonga TAFE was awarded the Victorian Large Training Provider of the Year award in 2015, and in the same year was a finalist for the Australian Large Training Provider of the Year.

Areas of expertise

- Agriculture, Environment, Horticulture
- Business Administration and Management
- Education and training
- English Language training
- Health and Community Services
- Motorsports and Motorcycle
- Transport, Supply Chain, Warehousing and Logistics

Program delivery

Wodonga Institute of TAFE’s reputation for the delivery of high quality training and assessment was recognised in achieving the Victorian Government’s Large Training Provider of the Year Award for 2015. Training is delivered across all states of Australia and transnational delivery has occurred within China and New Zealand for the last four years.

The Institute is also able to offer further consultancy services from our specialist delivery centres.

DRIVER EDUCATION CENTRE OF AUSTRALIA LTD (DECA)

DECA is the peak training body for driver education in Australia. Branches exist in four Australian states and training occurs across the country. DECA has existed for over 40 years supporting the transport and logistics industry, and has gained an outstanding reputation for high quality training. Current industry agreements are extensive, including the provision of the major contracts for driver training, forklift operator training and navy industrial skills training to the Australian Defence Force.
High quality training is also provided in the logistics and warehousing sectors, and across vehicles including trucks, buses, prime movers and trailers, and four-wheel-drive vehicles. New post-license driving excellence programs were added in 2016.

**MOTORSPORTS TRAINING AUSTRALIA (MTA)**

MTA delivers training that is tailored to the professional motorsport industry. Training programs include extensive work experience opportunities with national racing teams trackside at motorsports events. The workshop includes facilities for race car preparation, fabrication and composites production.

**SPECIALIST DELIVERY**

Specialist programs in the areas of aged care, agriculture, business, children’s services, education and training, fisheries, forestry, nursing, and English language training can be customised to suit individual client’s needs.

Wodonga Institute of TAFE ensures that students have relevant, high quality skills and are work-ready when they graduate.

**International student services**

Wodonga Institute of TAFE understands the challenges that international students may face and makes a commitment to student support which will:

- provide guidance and support to help students reach their potential in their personal and professional development
- assist students through uncertainty and challenge as they transition into education in a new country.

Support includes:

- accommodation options including on-campus, home-stay and off-campus shared living arrangements
- English language support is available to international students both for off-shore and onshore delivery
- a familiarisation program which includes accommodation assistance, local tours and access to recreation activities, using public transport, understanding currency, connecting to academic and other services, and becoming familiar with the community
- established partnerships with major Australian universities providing pathways into degree courses.

**Campuses**

- West Wodonga (Main Campus)
- Brooklyn
- Barnawartha North
- Newborough
- Shepparton
- Moonah (Tasmania)
- Smithton (Tasmania)
